

Transition to Advanced Avionics 101

Transition to Glass Panel Avionics. The Garmin G1000 will be used as the guinea pig. The G1000 will be dissected, torn apart and explained. What is an PFD?...No it's not Personal Floatation Device! What is an MFD? Can I listen to XM Music with it? Can I get weather? How about Charts? What are the parts of a glass panel? What about engine monitoring instruments? What is a tape? What is a soft key? Do I get traffic help? What is a flight management system? Why so many big words?

Directions: This seminar will be located in the Modern Avionics Hanger.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
